

CHART INDUSTRIES TOUR

There will be a tour of Chart Industries prior to the golf outing starting at 9:00 AM. If you are interested in the tour contact Mike Hanson at 763-221-5951 or at mikhan318@comcast.net.

The Chart/MVE plant located at 407 7th Street N.W. in New Prague, Minnesota, is the MVE founding site and is in its 45th year of operation. At the company's 240,000-square-foot plant in New Prague, workers manufacture bulk storage tanks, transport tanks and trailers, helium and hydrogen storage tanks, railcars, insulated pipe, nitrogen storage systems, and low temperature storage freezers for the artificial insemination market and the medical research industry. These products are used in many cryogenic applications.

Chart's Horizontal Series bulk stations for liquid nitrogen, oxygen or argon are available in sizes from 1,500 to 15,000 gallons (5,678 to 56,781 liters).
