AMERICAN WELDING SOCIETY • PITTSBURGH CHAPTER

October 2008 AWS Meeting Curtiss-Wright Electro-Mechanical Corporation Plant Tour

Curtiss-Wright Electro-Mechanical Corporation (known as CW-EMD) is a leader in the supply of critical function, electro-mechanical products. Innovative system and product solutions are based in the rich legacy of over 100 years of Westinghouse technology. More than 50 years ago, CW-EMD built critical function pumps for the first nuclear powered submarine, the USS Nautilus. Today, CW-EMD continues to develop, design and supply advanced electro-mechanical solutions for the US Navy, including the Navy's most advanced motors, generators and secondary propulsors.

CW-EMD also has extensive design, manufacture, test and operations experience in commercial markets. CW-EMD produces boiler circulation pumps and motors, reactor coolant pumps and motors, control rod drive mechanisms and primary loop valves that operate in commercial utility power plants

the world over. CW-EMD manufactures, refurbishes and tests commercial Reactor Coolant Pump (RCP) motors in the 4,000-10,000 HP range and has fabricated a 70 foot tall, 85,000 GPM pump and 17,500 HP synchronous motor with variable speed drive.

**THIS MEETING WILL BE HELD ON
OCTOBER 14, 2008.**

Please see the "Meeting Notice" on the reverse side for more information regarding times, location, cost and RSVP instructions.

Publication Sales

If you wish to purchase AWS Code books, the Pittsburgh Chapter sells them for 40% off of the list price which is almost double the member discount. Please contact Peter Kinney at 614-581-4047 for more information.

MEETING NOTICE

WHAT: Curtiss-Wright Electro-Mechanical Corporation Plant Tour

WHEN: Tuesday, October 14th, 2008

WHERE: 1000 Cheswick Ave. Cheswick, PA 15024
Phone: 724-275-5000
Tour begins at 6:00pm

All attendees must be a U.S. Citizen and possess a PHOTO I.D. for access to CW-EMD. R.S.V.P. by Monday, October 6th. Reservations **MUST** be made by this date. No exceptions!

PLEASE RSVP TO: Lincoln Electric
Ph: (724) 857-2750 • Fx: (724) 857-2751

Name _____

Company: _____

Phone: _____

Number Attending: _____

RSVP by Monday October 6th. Limited to 30 people.
