

American Welding Society®

SAN FRANCISCO SECTION

April Welding Meeting

Date: April 15th, 2017

Location: Red-D-Arc, 635 Gilman St, Berkeley, CA 94710

Time: 9am – 1pm

April is [National Welding Month](#), please join us for a Saturday of welding and NDT. **Edge Inspection Group** will be our main focus of this event with Ultrasonic Testing equipment, Dye Penetrant and Magnetic Particle Testing equipment. **If you are a student**, come and weld a coupon - it'll be inspected on site. **If you are an industry person** come help others or weld a coupon to see if you can pass a UT with zero indications! No matter your skill level or niche of the industry you are welcome to participate. Each participant is required to bring their own safety glasses, leather top shoes, welding gloves, welding helmet, and any hand tools you require to produce a clean weld. **You are also invited to attend as an observer (no welding)** to familiarize yourself with the welding and testing processes.

Coffee and donuts will be provided in the morning, and sandwiches at noon. There is no cost to attend, but reservations are required to ensure enough supplies and food are available for all.
