

AWS Carolina Section and ASME Carolina Chapter Meeting

Plant Tour – John Deere Kernersville

Thursday February 26 – 6pm to 8pm

John Deere Kernersville is a purpose driven design and manufacturing company for John Deere branded hydraulic excavators. Their state-of-the-art facilities produce high quality, made-to-order machines for North American customers. On-site operations include plate processing, welding, machining, logistics, paint, and assembly. The company's 34-year success has been built on their commitment to safety, quality, kaizen, and integrity.
