

American Welding Society®

EAST TEXAS SECTION

Would like to Invite you to LeTourneau University, Longview TX for a Section Meeting on Wednesday February 19th 2025 located at 2100 S. Mobberly Ave. Longview, TX 75602. Presentation will be in room C101 in the Glaske Engineering Building***See Map

Meeting Topic: What is Rotary Friction Welding (RFW) , best practices to verify RFW welding procedures, the advantages of RFW and will present some current application of RFW.

Who Should Attend: Anyone interested in advancing the growth of industry, manufacturing, and skilled labor. Welding Students, Educators and Administrators, Working Industry Professionals, Local Business Owners are encouraged to attend.

Event Agenda:

6:00-6:30 Welcome / Networking & Dinner

6:30-7:30 Presentation

Presenter: John Fischer with over 30 years in manufacturing, I have led a Rotary Friction Welding subcontract business.

My expertise spans customer and supplier relations, tooling, work holding, inspection, and both destructive and non-destructive testing.

Now serving as an advisor, I remain actively involved in R&D, technical sales, and welding education.

RSVP: easttexas@awssections.org Please rsvp by Monday, February 17th, 2025.
