

AWS Carolina Section Meeting

AWS - Strength Through Diversity

We are involved in a very diverse industry in terms of technology, industries/applications, people, education, and certification. AWS serves as an organization with the primary purpose of turning these diversities into strength through the advancement of the art, science, and technology of welding.

Presented by

AWS President Richard Holdren, P.E.

Wednesday, April 23rd - 6:00 – 7:00 PM

Guilford Technical Community College – Jamestown, NC

Followed by dinner at the Black Powder Smokehouse

Presenter:

Richard Holdren, P.E., AWS President, is a senior welding engineer at ARC Specialties Technical Services, principal welding engineer at Welding Consultants LLC, and owner of Holdren Engineering LLC. He has served over 40 years as an AWS member and chair of numerous AWS certification, education, and technical committees. He also served as director-at-large. He is an

AWS Counselor, Life Member, Senior CWI (SCWI), an AWS Certified Welding Engineer (CWEng), IIW International Welding Engineer, ASNT Level III, and ASNT Fellow.
